**SACBO: results demonstrate continuous growth  
as of 30 September 2017**

The SACBO Board of Directors, during a meeting held in the executive offices in Grassobbio, analysed the economic and financial standing of the company as of 30 September 2017, which revealed financial figures perfectly in line with budget forecasts, confirming the continuity of operations which reflect the positive trend, both in terms of overall turnover (9.6% growth), and in terms of passenger flow, shown at 9.5 million (+11.8%).

The net profit recorded as of 30 September 2017 proved to be particularly positive, at 11.8 million. These are results which consolidate the positioning of Milan Bergamo Airport, and corroborate SACBO's planned strategies with regards to all of the figures operating in the airport.
