

PRESS RELEASE

## **SACBO is the first airport management company to be certified ISO 27001 for information management**

SACBO, the company running Milan Bergamo Airport, has passed the ISO 27001 certification audit, which concerns the management of information and data security, carried out by TUV Italia.

SACBO is the first airport management company to obtain certification for its information management system in accordance with the 27001 regulation.

In order to achieve this objective, SACBO has had to proceed with the optimisation of communication activities and the relative instruments employed, and with the implementation of instruments for the verification of information activities in order to safeguard the correctness, quality and, where necessary, the confidentiality of the full range of data which its activities involve.

With ISO 27001 certification, SACBO complies with that provided for by REG UE 139/2014 regarding information technology and management systems for information security.

The certification audit concerning **the processes aimed at guaranteeing the security** of company information took place at the same time as the audit for the renewal of quality, environmental and work safety certification in accordance, respectively, with ISO 9001, ISO 14001 and OHSAS 18001 regulations.
