“We are pleased to be able to offer a significant summer schedule from our operational base at Milan Bergamo, where in recent years we have been a point of reference as a leisure carrier, as a result of our consolidated cooperation with the Sacbo airport management company and our partner tour operators. Our objective is to expand the network as soon as changes in the restrictions applied during the health emergency make it possible to plan new destinations, so that we can return to our normal schedule of operations, serving all the destinations that we have had to temporarily suspend or reduce in frequency”, said Giancarlo Celani, Sales Director & Deputy CEO at AlbaStar.

“The trust that AlbaStar airline has placed in Milan Bergamo Airport, during this delicate phase of planning a return to operations, confirms the success of this cooperation, as demonstrated by its mutual benefits and the resulting preference for its services from passengers over the years”, declared Giacomo Cattaneo, Aviation Sales Manager at SACBO. “The flight schedule meets the considerable demand that can be expected for Italy’s summer tourism destinations, and likewise for the new destination of Porto Santo, an island with wonderful sandy beaches that previously was not served by flights from Milan Bergamo, and that adds a very attractive opportunity in the context of the eagerly-awaited end to the long pandemic period”.
