

PRESS RELEASE

**SACBO COMMUNICATION REGARDING THE CALL FOR A HEARING  
SERVED BY ENAC**

With reference to the heavy rains which fell during the morning of Saturday, 2 September 2017, and which concerned the area of the city of Bergamo, with particular consequences for Bergamo Orio al Serio airport, SACBO confirms that, on occurrence of the events, it immediately sent an initial report to ENAC Airport Management which stated a rapid return to accessibility with regards to the affected areas, and guaranteed the full operational status of flights.

SACBO will respond to the call for a hearing served, dutifully, by the General Management of ENAC, taking full opportunity to present the preventative measures which were put into place based on the identification of factors which led to flooding, as well as measures considered suitable in order to counter exceptional weather conditions.
